## **Amzak announces strategic investment in Tricom, S.A.**

Amzak Capital Management is pleased to announce that it has made a strategic investment in Tricom, S.A., a leading telecommunications service provider in the Dominican Republic. Tricom offers a full spectrum of services to both residential and corporate customers, including fixed line telephony, cellular telephony, broadband data via technologies such as ADSL, cable modem, Wi-max wireless and, through its subsidiary Telecable is one of the two major cable television operators in the country. Founded in 1988, Tricom currently serves over 700,000 Revenue Generating Units in the Dominican market. For the year ending December 2008 Tricom reported revenue of US\$217 million and an adjusted EBITDA of \$43 million.

After a debt restructuring process lasting several years, Tricom is expected to conclude shortly its Chapter 11 reorganization proceedings in the Bankruptcy Court of the Southern District of Manhattan filed in 2008, with a substantially reduced debt burden and a new shareholder group (subject to the approval of Indotel, the telecommunications regulator of the DR) led by Amzak, who as the largest creditor to the company will become its largest shareholder. With the company freshly released from the distractions and capital constraints of its lengthy restructuring process, Amzak intends to work closely with management and other shareholders of the company to build upon Tricom's historically strong position in the Dominican telecommunications market, expanding its customer base, product offerings and the already high level of service quality.

Amzak Capital Management is the investment vehicle for the Kazma family. Amzak makes business development, debt and equity investments in a range of industries domestically and internationally. The group considers investments from a control perspective as well as minority investments across the capital structure, and has a particularly strong track record in the media and telecommunications sectors. Amzak is headquartered in Coral Springs, FL.
